

CERTIFICATE IN ESG INVESTING V.2 TESTED FROM 1 October 2020

OUNIT AIMS

By the end of this unit, learners should be able to demonstrate:

- An understanding of the context for different approaches to Responsible Investment and specifically, consideration of Environmental, Social and Governance (ESG) factors
- An understanding of the underlying issues that constitute factors within each of the Environmental, Social and Governance areas
- An understanding of the broader sustainability context and global initiatives
- An understanding of the ESG Market: relevance, size scope, key drivers and challenges, and risks and opportunities
- An understanding of environmental factors, systemic relationships, material impacts, mega trends and approaches to environmental analysis at country, sector, and company levels
- An understanding of social factors, systemic relationships, material impacts and approaches to social analysis at country, sector and company levels
- An understanding of governance factors, key characteristics, main models and material impacts
- An understanding of engagement and stewardship
- An understanding of ESG analysis, valuation and integration
- An ability to analyse how ESG factors may affect industry and company performance and security valuation across a range of asset classes
- An understanding of ESG integrated portfolio construction and management
- An ability to apply a range of approaches to ESG analysis and integration across a range of asset classes
- An understanding of investment mandates, portfolio analytics and client reporting

Question allocation across the syllabus is balanced on the guidance of psychometric and industry specialists. The following question allocation for Version 2 of the Certificate in ESG Investing is provided as a broad indication of the relative 'weighting' of different parts of the syllabus in examinations from 1 September 2020.

Topic	Topic Name	Question Allocation
1	Introduction to ESG	4-8
2	The ESG Market	4-8
3	Environmental Factors	6-12
4	Social Factors	6-12
5	Governance Factors	6-12
6	Engagement & Stewardship	6-10
7	ESG Analysis, Valuation & Integration	20-32
8	ESG Integrated Portfolio Construction & Management	8-14
9	Investment Mandates, Portfolio Analytics & Client Reporting	4-8

OTHERINFORMATION REGARDING THIS UNIT:

Exam format: 100 questions

Online testing using standard multiple choice and item set

questions

Time allowed for exam: 2 hours and 20 minutes

Grades: Pass or Fail

Study Materials: Official Training Manual Edition 2 will be available from the

CFA UK website; specimen exam available on CFA UK

website.

Recommended study hours: 130 hours

Availability of exam sessions: Every working day through Pearson VUE testing centres.

TOPIC 1 INTRODUCTION TO ESG

1.1 INTRODUCTION TO ESG

- 1.1.1 Define ESG
- 1.1.2 Define the following sustainability-based concepts in terms of their strengths and limitations:
 - Corporate Social Responsibility
 - Triple bottom line (TBL) accounting
- 1.1.3 Define the different approaches to ESG investing, their characteristics and the role that ESG plays in each of them:
 - Responsible Investment
 - Socially Responsible Investment (SRI)
 - Sustainable Investment
 - Best-in-Class Investment
 - Ethical / Values-driven Investment
 - Thematic Investment
 - Impact Investment
 - Green Investment
 - Social Investment
 - Shareholder Engagement
- 1.1.4 Describe the benefits and challenges to organisations of adhering to good practice in ESG and the arguments in relation to financial system stability and effectiveness
- 1.1.5 Explain in outline the materiality of ESG issues in terms of their key characteristics, risks and impact that they can cause:
 - Environmental: climate change, infrastructure, natural resources, nuclear energy, sustainability
 - Social: human capital, culture, customer engagement, demographical and social change
 - Governance: employee relations, management structure, executive remuneration
 - Disclosure and regulation
 - Technological disruption
 - Globalisation of value chains
 - Changes to the distribution and transfer of wealth
- 1.1.6 Explain the different ESG megatrends, their systemic nature and potential impact on companies and company practices

- 1.1.7 Explain the aims, elements and progress achieved by key supranational ESG initiatives and organisations:
 - United Nations Global Compact (UNGC) Principles
 - United Nations Environment Programme Finance Initiative (UNEP FI)
 - Principles for Responsible Investment (PRI)
 - The Paris Agreement and United Nations Framework Convention on Climate Change (UNFCCC)
 - United Nations Sustainable Development Goals (SDGs)
 - International Corporate Governance Network (ICGN)
 - Global Sustainable Investment Alliance (GSIA)
 - Financial Stability Board Task Force on Climate-related Financial Disclosures (TCFD)
 - Global Impact Investing Network (GIIN)
 - Corporate Reporting Dialogue (CRD)

TOPIC 2 THE ESG MARKET

2.1 THE ESG MARKET

- 2.1.1 Explain the size and scope of ESG investing:
 - In relation to the economy
 - Within financial markets
 - By asset class, investor type, geography and approach
 - In relation to stakeholders
- 2.1.2 Explain key market drivers in favour of ESG integration:
 - Investor demand / intergenerational wealth transfer
 - Regulation and "soft law"
 - Public awareness
 - Data sourcing and processing improvements
- 2.1.3 Explain the key drivers and challenges for ESG integration among stakeholders within the investment industry:
 - Governments and regulators
 - Pension funds, investment consultants and trustees
 - Investment and financial institutions
 - Insurance companies
 - Corporations
 - Private wealth / retail clients
 - ESG rating and proxy voting service providers

- Trade and non-profit organisations and academia
- 2.1.4 Explain how ESG issues are related to sustainability trends and themes within the investment industry, including:
 - the longer-term nature of ESG investing
 - ESG-driven market, organisational and cultural changes
- 2.1.5 Explain the key challenges to the implementation of successful ESG investing:
 - Investment mandate interpretation and screening application
 - Isolating the impact of ESG
 - Strategy definition: risk management versus. value creation / materiality
 - Portfolio construction and management tools
 - Available expertise and specialism
 - Disclosure of internal standards and practices
 - Pace of change and development in ESG
 - Data quality, variability and interpretation
 - Identifying material ESG factors

TOPIC 3 ENVIRONMENTAL FACTORS

3.1 ENVIRONMENTAL FACTORS

- 3.1.1 Explain key concepts relating to climate change from an evidence-based perspective, including:
 - Climate change
 - Climate change mitigation
 - Climate change adaptation and resilience measures
- 3.1.2 Explain key concepts relating to other environmental issues from an evidence-based perspective, including:
 - Pressures on natural resources
 - Pollution and waste
- 3.1.3 Explain the systemic relationships and activities between business activities and ecosystem services, including:
 - Climate change and other environmental issues
 - Supply, operational and resource management issues
 - Supply chain transparency and traceability
 - Systemic impact of climate risks on the financial system

- 3.1.4 Assess key "megatrends" influencing environmental change in terms of potential impact on companies and their environmental practices:
 - Growth of environmental and climate policies
 - International climate and environmental agreements and conventions
 - International initiatives
 - Oceans and the blue economy
- 3.1.5 Assess material impacts of environmental issues on potential investment opportunities, including the dangers of overlooking them:
 - Corporate and project finance
 - Public Finance Initiatives
 - Asset management
- 3.1.6 Identify approaches to environmental analysis at country, sector and company levels in both developed and emerging countries, including Natural Capital
- 3.1.7 Apply material environmental factors to:
 - Financial modelling
 - Ratio analysis
 - Risk assessment
 - Quality of management
- 3.1.8 Explain how companies and the investment industry can benefit from opportunities relating to climate change and environmental issues:
 - Circular economy
 - Green products
 - Clean and technological innovation

TOPIC 4 SOCIAL FACTORS

4.1 SOCIAL FACTORS

- 4.1.1 Explain key social concepts from an evidence-based perspective:
 - Human Capital: development, employment standards, health and safety, product liability / consumer protection: safety, quality, health and demographic risks, data privacy and security
 - Stakeholder opposition / controversial sourcing
 - Social opportunities: access to communications, finance, health and nutrition

- Social and news media
- Animal welfare and microbial resistance
- 4.1.2 Explain the systemic relationships and activities between business activities and social issues, including:
 - Inequality
 - Globalisation
 - Automation and AI in manufacturing and service sectors
 - Wealth creation
 - · Work, family and leisure time
 - City vs rural communities
 - · Health and welfare
 - Supply chain
- 4.1.3 Assess key 'megatrends' influencing social change in terms of potential impact on companies and their social practices:
 - Climate change
 - Transition Risk
 - Water Scarcity
 - Mass migration
- 4.1.4 Assess material impacts of social issues on potential investment opportunities, including the dangers of overlooking them:
 - Changing demographics, including health and longevity
 - Digital disruption, social media and access to electronic services
 - Individual rights and responsibilities
 - Family structures and roles
 - · Education and work
 - Distinction between faith-based ESG investing and exercise of religion as a social factor
 - Inequality
 - Globalisation
- 4.1.5 Identify approaches to social analysis at country, sector and company levels in both developed and emerging economies
- 4.1.6 Apply material social factors to:
 - Financial modelling
 - Ratio analysis
 - Risk assessment
 - Quality of management

TOPIC 5 GOVERNANCE FACTORS

5.1 GOVERNANCE FACTORS

- 5.1.1 Explain the evolution of corporate governance frameworks and key motivators for step change:
 - Development of corporate governance
 - Roles and responsibilities
 - Systems and processes
 - Shareholder engagement
 - Minority shareholder alignment
- 5.1.2 Assess key characteristics of effective corporate governance, and the main reasons why they may not be implemented or upheld:
 - Board structure, diversity, effectiveness and independence
 - Executive remuneration, performance metrics and KPIs
 - Reporting and transparency
 - Financial integrity and capital allocation
 - Business ethics
- 5.1.3 Assess and contrast the main models of corporate governance in major markets and the main variables influencing best practice:
 - Markets: Germany, Japan, Netherlands, Scandinavia, UK and USA
 - Extent of variation of best practice
 - Differences in legislation, culture and interpretation
- 5.1.4 Explain the role of auditors in relation to corporate governance and the challenges in effective delivery of the audit:
 - Independence of audit firms and conflicts of interest
 - Auditor rotation
 - Sampling of audit work and technological disruption
 - Auditor reports
 - Audit liability
 - Internal audit
- 5.1.5 Assess material impacts of governance issues on potential investment opportunities, including the dangers of overlooking them:
 - Public Finance Initiatives
 - Companies

- Infrastructure / private finance vehicles
- Societal impact
- 5.1.6 Apply material corporate governance factors to:
 - Financial modelling
 - Ratio analysis
 - Risk assessment
 - Quality of management

TOPIC 6 ENGAGEMENT AND STEWARDSHIP

6.1 ENGAGEMENT AND STEWARDSHIP

- 6.1.1 Explain the purpose of investor engagement and stewardship
- 6.1.2 Explain why engagement is considered beneficial and its relationship with fiduciary duty
- 6.1.3 Explain the main principles and requirements of Stewardship Codes as they apply to institutional asset management firms:
 - UK Walker Review (2009) and Stewardship Code (2020)
 - US ERISA Act guidelines
 - EU EFAMA Stewardship Code
- 6.1.4 Explain how engagement is achieved in practice, including key differences in objectives, style and tone
- 6.1.5 Apply appropriate methods to establish an engagement approach:
 - Strategy and tactics: goal-setting
 - Identifying who to talk with
 - Formalities: hosting / agenda / managing expectations
 - Communication: approach / tone / managing tensions
 - Working towards agreement
 - Escalation techniques, including collective engagement
 - ESG investment forums
 - Proxy voting
- 6.1.6 Distinguish between different types of engagement across a range of asset

TOPIC 7 ESG ANALYSIS, VALUATION AND INTEGRATION

- 7.1 ESG ANALYSIS, VALUATION AND INTEGRATION
- 7.1.1 Explain the aims and objectives of integrating ESG into a firm's investment process
- 7.1.2 Describe different approaches of integrating ESG analysis into a firm's investment process
- 7.1.3 Describe the challenges of integrating ESG analysis into a firm's investment process:
 - Financial
 - Operational
 - Cultural
- 7.1.4 Explain how ESG complements traditional financial analysis
- 7.1.5 Analyse how ESG factors may affect industry and company performance
- 7.1.6 Analyse how ESG factors may affect security valuation across a range of asset classes: alternative investments; equities; fixed income
- 7.1.7 Describe quantitative approaches to ESG analysis across a range of asset classes: alternative investments; equities; fixed income
- 7.1.8 Describe qualitative approaches to ESG analysis across a range of asset classes: alternative investments; equities; fixed income
- 7.1.9 Describe primary and secondary sources of ESG data and information
- 7.1.10 Explain the approaches taken across a range of ESG integration databases and software available, and the nature of the information provided
- 7.1.11 Explain how Credit Rating Agencies (CRAs) approach ESG Credit Scoring, and the extent to which CRA ratings can be relied upon for ESG investing:
 - PRI Statement on ESG in Credit Ratings
 - Main ESG CRA methodologies
 - Quantitative ESG Scores (QESGs)
 - Relationship between Scores and Ratings, and other indicators eg credit default swap (CDS) Spread
 - Key challenges: transparency, consistency and comparability
- 7.1.12 Identify the main providers of screening services or tools, similarities and differences in

- their methodologies, and the aims, benefits and limitations of using them
- 7.1.13 Describe other uses of ESG and sustainability system data
- 7.1.14 Describe the limitations and constraints of information provided by ESG integration databases
- 7.1.15 Describe the challenge of identifying and assessing material ESG issues
- 7.1.16 Describe the challenges of undertaking ESG analysis across different geographic regions and cultures
- 7.1.17 Identify tangible and intangible material ESG-related factors through both qualitative and quantitative approaches
- 7.1.18 Assess ESG issues using risk mapping methodologies
- 7.1.19 Describe how scorecards may be developed and constructed to assess ESG factors
- 7.1.20 Interpret a company's disclosure on selected ESG topics
- 7.1.21 Apply the range of approaches to ESG analysis and integration across a range of asset classes: alternative investments; equities; fixed income

TOPIC 8 ESG INTEGRATED PORTFOLIO CONSTRUCTION AND MANAGEMENT

8.1.1 ESG INTEGRATED PORTFOLIO CONSTRUCTION AND MANAGEMENT

- 8.1.1 Explain the impact of ESG factors on strategic asset allocation
- 8.1.2 Describe approaches for integrating ESG into the portfolio management process
- 8.1.3 Explain approaches for how internal and external ESG research and analysis is used by portfolio managers to make investment decisions
- 8.1.4 Explain how screening has evolved through different approaches to Responsible Investment, and the benefits and limitations of the main approaches
- 8.1.5 Explain the main indices and benchmarking approaches applicable to sustainable and ESG investing, noting potential limitations
- 8.1.6 Apply ESG screens to the main asset classes and their sub-sectors:

- Alternative investments
- Equities
- Fixed Income
- 8.1.7 Distinguish between ESG screening of individual companies and collective investment funds:
 - On an absolute basis
 - Relative to sector / peer group data
- 8.1.8 Explain how the risk-return dynamic of portfolio optimisation is impacted by ESG-integrated investing
- 8.1.9 Evaluate different types of ESG / SRI investment in terms of key objectives, investment considerations and risks:
 - Full ESG integration
 - Exclusionary screening
 - Positive alignment / Best-in-Class
 - Active ownership
 - · Thematic investing
 - Impact investing
 - Other
- 8.1.10 Describe approaches to managing passive ESG portfolios

TOPIC 9 INVESTMENT MANDATES, PORTFOLIO ANALYTICS AND CLIENT REPORTING

- 9.1 INVESTMENT MANDATES, PORTFOLIO ANALYTICS AND CLIENT REPORTING
- 9.1.1 Explain why mandate construction is of particular relevance and importance to the effective delivery of ESG investing
 - Linking sustainable investing to the mandate
 - Defining the sustainable investment strategy
- 9.1.2 Explain how ESG screens can be embedded within investment mandates / portfolio guidelines to:
 - Generate investment returns
 - Manage portfolio risk

- 9.1.3 Explain the most common features of ESG investing that asset owners and intermediaries, including Pension Consultants and Fund Selectors are seeking to identify through RFP and selection processes:
 - Voting
 - Engagement
 - Examples of decision making
 - Screening process
- 9.1.4 Explain the different client types and their objectives which influence the type of ESG investing strategy selected
- 9.1.5 Explain the key mechanisms for reporting on and monitoring performance and mandate alignment with client objectives.
- 9.1.6 Explain the key challenges in measuring and reporting ESG- related investment performance:
 - Active, passive and Smart Beta approaches
 - Performance attribution
 - Sensitivity analysis
 - Risk measurement
 - Engagement activity / impact
 - Integrated reporting and investment review
