

CFA UK VOLUNTEERING: DRIVING INDUSTRY CHANGE

"CFA UK volunteers play a pivotal role in both the investment sector and supporting our members, giving their time and expertise on a diverse range of topics. The Society is hugely grateful to the volunteers who led the development of CFA UK's Certificate in ESG Investing, which is now being studied by hundreds of candidates in the UK and across Europe.

The outputs from our extensive volunteer programme – events, webinars, articles, videos and podcasts – ensure industry insights are available to support our members. A renewed focus on professional learning, driven by our volunteers, now brings on-demand, bitesize continuing education to help members succeed in their careers.

Volunteering for CFA UK is an amazing way to work together to make a difference."

Daniel Murray, CFA, Chair of CFA UK Board
