

VOLUNTEER IMPACT REPORT 2021

"As our profession continues to navigate a world irrevocably impacted by Covid-19, the resilience of CFA UK volunteers has shone through. This year, volunteers have created the impressive content backbone of CFA UK's webinars, podcasts, articles, learning plans, advocacy and networks. I would like to highlight the work of our Special Interest Groups and Networks, who ensured members could continue to have professional conversations and debate during lockdown.

I am proud to see our volunteer community come together to nurture friendships, shape each other's learning and develop as individuals, as well as inspire and motivate other CFA UK members."

Daniel Murray, Chair, CFA UK Board
